

My name is Madison Busch, I am 19 years old and was born and raised here in Arizona. I currently live with my mom, stepdad, and younger sister in Tolleson. Last school year I graduated from high school - which, for a while, was something I was not sure I would do. Before I started working here I worked with kids who have special needs, anything from mental disabilities to physical disabilities. I loved it but I just was not working enough and set out to find something more consistent. This is my first time working in a preschool and I am very excited about it. I have worked with kids since I was about 15 years old, either babysitting or working in the children's ministry at my home church. I have known for a long time that my passion is kids and seeing them grow and mature. It is an incredibly rewarding feeling knowing I can make a positive impact in their lives. I would love to one day be a preschool teacher or work with kids in elementary school from kindergarten to second grade. This year I am working towards getting my CDA, also known as, Child Development Associate. I could not be more excited to start working on this time in my life. I am even more excited to see what God has in store for me over the next couple of years and what He wants to do through me.
